

# Are termites destroying YOUR home... and you don't even know it?

Are you worried that the traditional method of only tapping, listening through walls and visual inspections will miss finding termites and other pests?

## We have the solution!

We'll find termites and other pests in your home no matter how well they are hidden. Or we'll prove that there's nothing there.

## How?

**We use the unique Termatrac®T3i - the only device in the world that detects termites or pest movement through and behind any walls, ceilings or roof areas\*. We show you this movement on a screen.**

**Termatrac®T3i with its unique radar, thermal and moisture sensors:**

- pinpoints the exact location of any movement, and
- as proof... not only will you see the evidence of any termite or pest movement on the screen for yourself... a printed report is available on all findings.

## That's total confidence for you.

Only use a termite company that uses the Termatrac®T3i.

\*Excludes solid metals

**TERMATRAC**<sup>®</sup>  
THE WORLD'S No. 1 TERMITE DETECTOR

# Do you want...

## Peace of Mind

Not only do we find the termites, but on a return inspection after treatment, we show you proof they've gone. You can see and believe for yourself with the Termatrac<sup>®</sup>T3i. It's awesome! No one else can offer this.

## No inspection damage

Using the Termatrac<sup>®</sup>T3i we don't have to pull walls apart or drill holes to find termites.

## Lower costs & a greener solution

The Termatrac<sup>®</sup>T3i pinpoints the exact location of any hidden pests allowing us to treat with fewer chemicals. This reduces cost, reduces your health risks and has less environmental impact.

**We give you guarantees that  
no one else can**

## Buy your new home with confidence

Did you know that the Timber Pest Inspection Report only reports on what's visible to the human eye. Insist on getting an additional Termatrac<sup>®</sup>T3i report on hidden areas to make sure that you are not sharing your new home with termites or other pests.
